ABOUT THE ORGANIZATION

We are a comprehensive, stepped-care clinic offering a variety of traditional services in addition to Solution-Focused Single Session Therapy, on a mission to reduce barriers to effective care. In addition to traditional individual, couples, and family therapy services, we provide group therapy, community workshops, and psychological testing. Alongside the traditional therapy services that we offer, we have a unique approach called Solution Focused Single Session Therapy. This therapy approach is evidence-based, embeds a clinical consultation team meeting during the session time, and allows patients to decide how much of our support they need.

EOE STATEMENT
